THE SCOPE THAT CHANGED EVERYTHING

There’s a reason the Trijicon ACOG® (Advanced Combat Optical Gunsight) is the official medium-distance engagement optic of the U.S. Special Operations Forces and Marine Corps. And there’s a reason over one million ACOGs have been produced. They offer an illuminated reticle pattern for use in bright to low/no light, along with legendary durability and reliability. In fact, every feature of its design was chosen for a single purpose: to provide increased hit potential in all lighting conditions.

FEATURES

BATTERY-FREE ILLUMINATION
Most ACOG® models feature a tritium/fiber optic illuminated reticle that automatically adjusts the brightness based on available light.

RUGGED ALUMINUM-ALLOY HOUSING
Forged 7075-T6 aircraft-aluminum-alloy housing provides for a nearly indestructible sighting system.

“BOTH EYES OPEN” DESIGN
The ACOG can be used as a CQB sight when shooting “both eyes open” utilizing the Bindon Aiming Concept (see pg. 7).

SUPERIOR QUALITY GLASS LENSES
Multi-coated lenses provide superior clarity and light-gathering capabilities with zero distortion.

FIXED MAGNIFICATION
Fewer moving parts than a variable optic equals more durability. Seven magnifications available: 1.5x, 2x, 3x, 3.5x, 4x, 5.5x, and 6x.

BULLET DROP COMPENSATING & RANGING RETICLES
Available in most models.

COMBAT PROVEN
No other regarded sight has been used more in combat than the ACOG.

SHOCK-RESISTANT
Proven to withstand recoil from a .22LR to a .50BMG and everything in between. Easily passes U.S. Military drop test requirements.

WATERPROOF
Dry-nitrogen-filled to eliminate fogging. Five times more waterproof than military standard requirements.

LIMITED LIFETIME WARRANTY
Tritium lamp is warranted to illuminate for 15 years on fiber optic scopes and 10 years on non-fiber optic scopes.

“I can’t speak highly enough of this scope. It has been strapped to my leg through 37 airborne operations, 7 fast ropes in the mountains of the Korengal Valley and hundreds of combat patrols with zero failure. Thank you for such a great product.”

— Staff Sergeant Donovan Burson
Pathfinder Company

THE ULTIMATE SIGHT FOR CQB AND LONG DISTANCE

This dual-sighting system gives the shooter a distinct tactical advantage with the option of either the Trijicon ACOG® or the RMR®. For quick target acquisition, choose the RMR. For accuracy and pinpoint bullet placement at a distance, choose the magnified ACOG. You have the best of both worlds. No tools are needed for windage and elevation adjustments because the ACOG also features external windage and elevation adjusters.
